DETAILED ACTION

1. This is the second Office action on the merits of Application No. 10/681,273, filed on 09 October 2003. Claims 1-10 are pending.

Documents

2. The following documents have been received and filed as part of the patent application:
- Information Disclosure Statement, received on 10/09/03
 - Foreign Priority Document, received on 10/09/03

Allowable Subject Matter

3. Claims 1-10 are allowed.
4. The following is an examiner's statement of reasons for allowance:

Claim 1:

The prior art of record fails to show or render obvious an engine deceleration control system, as recited in claim 1; specifically, wherein the controller is arranged to prohibit correcting the air quantity for a first predetermined time period from a moment when a state of an accelerator of the engine is changed from an operative state to an inoperative state.

Claim 8:

The prior art of record fails to show or render obvious an engine deceleration control system an engine speed detector, an air quantity control device, an accelerator, a

brake, and a controller, as recited in claim 8; specifically, wherein the controller is arranged to prohibit correcting the air quantity when one of first, second and third conditions is satisfied where the first condition is a condition that an elapsed time period from a moment of turning off of an accelerator of the engine is within a first predetermined time period, the second condition is a condition that an elapsed time period from a moment of turning off of a lockup clutch of a torque converter is within a second predetermined time period, and the third condition is a condition that a shifting of a transmission connected to the engine is executed.

Claim 9:

The prior art of record fails to show or render obvious an engine deceleration control system, as recited in claim 9; specifically, wherein the system includes a correction prohibiting means for prohibiting the correction of the air quantity during a predetermined time period from a moment that an accelerator is put in an Off state.

Claim 10:

The prior art of record fails to show or render obvious a method of controlling a deceleration of an internal combustion engine, as recited in claim 10; specifically, wherein the method includes the step of prohibiting correcting the air quantity during a predetermined time period from a moment that an engine accelerator is put in an Off state.

Art Unit: 3681

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
